DISCOUNTS ARE AVAILABLE!

We offer discounts based on the amount of fuel you have purchased. Discounts are calculated every billing period to save you money on every statement. The discount amount is listed at the top of each statement and is subtracted from the total dollars purchased for that billing period. The discount schedule below illustrates the savings you can qualify for:

GALLONS PURCHASED	DISCOUNT PER GALLON
100-249	.01/GALLON
250-499	.015/GALLON
500-749	.02/GALLON
750-999	.03/GALLON
1000-1499	.04/GALLON
1500-1999	.05/GALLON
2000-OVER	.06/GALLON

If you have more than one account with us, don't worry! At your request, we can consolidate the volumes for each account into one big discount. That way purchases made by one location can help reduce the fuel costs at another location. We also have a **Company/Employee Program** that works the same way. The statements will still remain completely separate; you will just get a bigger discount on each of them!
